

Start Date & Time: September 10, 2019 at 7pm

Location: Voices Now Studio

4465 S 900 East Millcreek, Utah 84124

Tuition: \$450/level

EXTRA VALUE: \$800 for BOTH Beginning & Intermediate

CHRISTINA THURMOND

Voiceover Workshop

BEGINNING VO CLASS - LEVEL I (5 weeks)

Learn "tricks of the trade" that will make you feel confident and look professional at your first audition while learning how the VO Business works. You'll achieve basic skills while having fun behind the microphone with a live engineer! By the final week you will have a recorded copy of your work in the booth that shows your unique vocal styles in preparation for making your first Professional VO Demo!

INTERMEDIATE VO CLASS - LEVEL II (5 weeks)

MUST HAVE COMPLETED THE BEGINNING CLASS, HAVE DEMO ALREADY OR BE PREPARED TO AUDITION LIVE

This class is for people who have experience and/or training. We will refine skills while working with a top engineer in the voice booth. You will find and organize the right copy that shows off what you do best from the "Library of Scripts" at Metropolis. Preparation for producing or updating existing demos will be a major focus so that the Talent will be ready to submit themselves for representation in this market as well as others.

Chris is the kind of teacher that recognizes her students' talents and supports them in their business. I went to her for a private lesson. Ten minutes after I left her office, I got a call to come back and audition for a radio spot. I booked the job. Thank you Chris!! -- Sandy Tieman (Professional Voice Talent with TMG Salt Lake)

It's so hard to find a safe, but challenging environment. Pushing me out of my comfort zone but in a supportive environment is what I look for in a class, and I felt that your class really delivered on that score. Plus, a fun last class! -- Laura Jones (Professional Voice Talent with TMG Salt Lake)
